

M

5 December 1980

MEMORANDUM FOR: Director of Central Intelligence
FROM : PB/NSC Coordinator
SUBJECT : Reagan Briefings (U)

1. Attached are the following folders for your weekend review (you already have the one on Strategic Balance).

- Soviet Economy. (In this folder are Doug's 3 December proposed briefing and a shorter 2-1/2 page version that we did; we attempted to tailor this so as to lead in to your "nonbriefing" on the Strategic Balance.)
- Sino-Soviet Relations. (This represents a revision following this morning's session.)
- China and East Asia. (This is the proposed briefing for your use at the Commerce luncheon; included here is a revised briefing pursuant to this morning's session as well as the original one; at the left are mockups of graphics that, if you okay, will be made into large boards.)

We have also included some of the technical collection briefings which have been revised pursuant to your earlier notes. These include:

- Imagery
- SIGINT
- Telemetry

25X1D

[redacted]

Not included here are the ones on Cryptography, Covert Action or HUMINT. These should be available for your review on Monday. The reason for the delay on Cryptography is that [redacted] has not yet received his input from NSA. Further re NSA, UNODIR Bill would like to run the SIGINT [redacted] and TM talking points by them (☒ Yes ☐ No)

SECRET NOFORN

- Bob advises that [] will have delivered to the Ops Center by 1200 tomorrow a rough of what they believe the responses would be to various US options. The Ops Center has been directed to get this to you ASAP. Bob will not have reviewed but will receive a drop copy. ✓
- The Polish Task Force has also been advised to have some talking points ready for you in case the meeting goes (and also that you might want to talk with someone before any meeting). [] ✓
